

WE CREATE PACKAGING

COMPANY PROFILE

A FAMILY STORY OVER 45 YEARS LONG

It was back in 1973 when the Adami Brothers founded Casone SPA on the ground named "I Casoni", in the province of Parma, where the family used to work at that time. Since then, their company has continued growing in a constant pursuit of innovation, research and development. In the 1980s some prestigious recognitions were awarded, such as the **ITALIAN OSCAR FOR PACKAGING** and the **EUROPEAN "EUROSTAR" OSCAR FOR PACKAGING**, which rewarded the capacity for innovation of company Casone. The **huge expansion of the plant**, whose total extension is currently 23,000 sqm, took place in the 1990s, along with the **diversification of the sales sectors** of its products and the **certificate ISO 9001**. The new millennium has been bringing along some **important technological and organizational innovations**, such as the transition to electrical machinery, a new laboratory for tests with specific equipment for Quality Control, a wide semiautomatic warehouse, new production lines and new moulds. Today the company is managed by the first and second generation, it sells in **all main European and non-European countries** and has **more than 100 employees**.

OUR MISSION

Our mission and our daily commitment have always been focused on reaching **the highest quality** and **excellent performances of our containers**. Our buckets are robust and guarantee excellent performances both in static and dynamic stacking. We wish to contribute to the success of our Customers by providing a flexible, quick and customized service. We look to the future **by preserving and safeguarding the environment**: for this purpose we chose to reduce and minimize all risks related to the production of plastic packaging. This is made possible by the use of electric machines, the recovery of production waste, the use of both regenerated and post-consumer material and the development of an in-mould-labelling technology, without any inks and solvents. **We invest in R&S** with the aim of designing and creating containers that, despite using a smaller amount of raw material, can guarantee high performances.

QUALITY

We select **first choice polypropylene**, which is conform to European and International Standards. We have been **certified since 1999**, according to the Quality Management System (ISO 9001:2015) and we have been guiding **the management of the environmental aspects towards the respect of the main reference Standards**.

FOOD SAFETY

We work under **GMP (Good Manufacturing Practices)** in accordance with the EC Regulation 2023/2006, to ensure the hygiene and safety of packaged products.

ENVIRONMENTAL SUSTAINABILITY

Development and sustainability are the principles that guide us in our path of **concrete commitment to the environment**.

SERVICE

We provide an **on time and flexible service**, aimed to support our Customers in the achievement of their goals

OVER 100 ITEMS

**CHEMICAL
& PHARMACEUTICAL**

**FOOD
& PETFOOD**

**DANGEROUS
GOODS**

WASTE

Our plastic containers are designed to contain chemical products, food, pharmaceuticals and hospital waste and unless otherwise requested by the customer, they are produced exclusively with first choice polypropylene for contact with food.

Keeping in mind the environmental sustainability, we chose to carry out our containers also with **regenerated and post-consumer materials**, in order to reduce waste and CO2 emissions in the atmosphere.

Every year we enrich and widen our range of containers, with the aim of producing **innovative and high-performance packaging**, that responds to the changing needs of the market.

In order to meet with any specific requirement from our Customers, we can produce **customized packaging** thanks to our Research and Development Team, who works in synergy with external design studios and highly selected mould producers.

As of today, our product range offers **over 100 pails from 0,125 lt. up to 60 lt. capacity**, conical, rectangular, cylindrical or oval in shape. All containers and lids can be customized through high definition images relying on the **in-mould labelling** technique.

SPECIAL PACKAGING

- **EXTRA RESISTANT** to pack particularly heavy products;
- **APPROVED** according to the **ADR REGULATION** for the transport of dangerous goods;
- Made out of **REGENERATED** and **POST-CONSUMER** material to encourage an economy based on eco-efficient recycling and on recovery of raw materials;
- **For TWO-COMPONENT** products for packaging all materials that require blending before use;
- With a **BARRIER EFFECT** for food companies that intend to avoid the dispersion of aromas and protect their product from oxygen, UV rays and moisture.

Casone S.p.A.
more than 45 years
of **PASSION**

CASONE FOR CHARITY

Premio
Qualità
Sociale
d'Impresa

In 2011 Casone is awarded with the **Prize for Corporate Social Quality** with which the province of Parma wishes to give a recognition to the entrepreneurial and social realities of the territory that have distinguished themselves in the employment of disabled people, giving evidence of a strong social responsibility.

The company management is aware of the **social role of the company** and directs part of its resources to support the most disadvantaged realities and deserving associations of the territory. Our social commitment has always been aimed at supporting research projects in the medical field, civil protection initiatives and the centre against Violence located in Parma.

CASONE FOR SPORT

www.atleticacasonenoceto.it

For over 35 years we have been supporting sporting ventures, with the purpose of standing by young people in the achievement of their goals and passions and with the aim of contributing to enhance the activities promoted by the territory. In 1981 the running group, known today as "**Atletica Casone Noceto**", was founded; it currently numbers 240 associates from the whole Parma area as well as from the neighbouring provinces, among whom more than 170 are Fidal card-carrying members. The group consists of athletes from the master categories, senior athletes and walkers too.
